

## HEALTH SAFETY AND ENVIRONMENT DIVISION

### The Leslie Bretherick Memorial Lecture Award

**APPLICATIONS CLOSE: MIDNIGHT ON 30 JUNE (EACH YEAR)**

The Health Safety and Environment Division has established *The Leslie Bretherick Memorial Lecture Award* not only to recognise his pioneering contributions in the field of chemical and laboratory safety but also recognise the ongoing importance that laboratory safety plays in the field of chemistry.

Despite advancements in laboratory safety systems and technology, “adverse reactions” still occur on a regular basis.

To be awarded the medal, the project, research, or activities must include outcomes that have impacted upon members of the public, industry, government, academic institutes and or be recognised as a significant contribution to the science of health safety and environment.

The nominations must be made using the attached nomination/application form.

The Standing Committee will appoint a sub-committee to consider the nominations and make recommendations regarding the award. It is expected that applications will be able to address each of the above criteria to a minimum standard. No award shall be made if the Standing Committee considers there is no candidate of sufficient merit.

Nominations should be emailed to the Chair of the Health, Safety and Environment Division by **30 June (every year)** using the attached application form. [HSE.div@raci.org.au](mailto:HSE.div@raci.org.au).

If you have any questions, please email: [HSE.div@raci.org.au](mailto:HSE.div@raci.org.au).

#### **Past Recipients**

2020 Mr W V (Peter) Hunt

2019 Associate Professor Colin Rix
