

The RACI Supramolecular Chemistry Award

Awarded annually by The RACI Supramolecular Group for:

Outstanding early career research in supramolecular chemistry

Nominations can be submitted by any RACI member including the nominee (self-nomination). The nominations require:

Criteria

- The candidate is required to be a current member (for a minimum of 3 years) with less than 10 years professional experience relative to opportunity since completing their PhD, or equivalent. Career breaks and periods of less than part-time employment will be recognised and should be clearly outlined in a cover letter.
- a current CV (max 5 pages) including a list of the 10 most relevant publications or other outputs and
- a synopsis of independent research work conducted while a member of the RACI and since the completion of the PhD thesis which has contributed significantly towards the development of an area of supramolecular chemistry (max 2 pages)

Please note that nominations should obey the spirit of the San Francisco Declaration on Research Assessment (DORA) [[view here](#)] and that the award adjudicators will consider a wide range of output measurements.

Nominations open 1 December, 2021 and close 31 January 2022.

Please email in a single PDF document to:

kate.jolliffe@sydney.edu.au for the attention of Prof. Kate Jolliffe, Chair – RACI Supramolecular Group no later than 31 January, 2022.

After the closing date, no further nominations for the award will be accepted.

The RACI Supramolecular Chemistry Group reserves the right to not award the RACI Supramolecular Chemistry Award if no nominations from a candidate who has sufficient merit are received.
