

MRACI Post Graduate Student Travel Bursary

The RACI introduced the Graduate Student Travel Bursary to assist Post Graduate Student members of the Institute to travel professionally from their home institution.

This year the award will cover attendance at the RACI National Congress plus \$500 toward travel and accommodation expenses and each winner will receive a certificate acknowledging their success. Applicants do not need to have submitted an abstract for the Congress however it is preferable.

On completion of the event, the RACI would like successful applicants to produce a short article for the RACI website and to make themselves available to speak about their experience to science/chemistry students at a RACI Affiliate Member school in their state.

Candidates may apply or be nominated and are required to be Post Graduate Student members of the RACI for a minimum of 12 months and enrolled at an Australian University in a Chemistry-related degree. Applications open 18 March 2022 and close 22 May 2022.

Please provide:

- A CV highlighting degrees, awards, any relevant publications and include a short description of the expected outcome from attending the Congress.
- Any other activities or special circumstances or contributions to the RACI.
- Name, email, and telephone contact information of academic advisor and a second referee.

Please email in a single PDF document to awards@raci.org.au for the attention of Alyce Scanlon-Batt no later than 22 May 2022. Receipt will be acknowledged by return email and Bursary winners will be notified by 7 June 2022.

After the closing date, no further applications/nominations for the award will be accepted. If in the opinion of the Board there is no candidate who has sufficient merit, the Board may refrain from making an award.
